Telefon: **698 653 017**

Miejscowość: Bytom

Created in collaboration with AI — because even quality needs a little automation.

QA Engineer with over 3 years of experience in manual testing of web applications within Agile/Scrum teams. Currently developing skills in test automation, focusing on Robot Framework and core Python programming. Skilled in designing test scenarios, analyzing requirements, reporting, and validating defects throughout the QA lifecycle. Proficient in daily use of Jira, Confluence, Git, and Browser DevTools, while collaborating closely with development teams. Committed to delivering high-quality results, clear communication, and continuous improvement of testing processes. Motivated to progress toward a Senior Test Automation Engineer role.

DOŚWIADCZENIE ZAWODOWE

05.2022 – obecnie (3 lata 7 mies.)

■ **QA Engineer** | ADB Polska Sp. z o.o. | Katowice

Krótki opis stanowiska:

Manual & Automation QA Engineer

- + Executing manual tests for broadband software and router management platforms based on requirements and acceptance criteria.
- + Reporting, prioritizing, and tracking bugs in Jira, ensuring clear reproduction steps and transparent communication with development teams.
- + Creating and maintaining QA documentation in Confluence, including test cases, test plans, and structured test reports.
- + Maintaining automated test suites and monitoring their execution; analyzing test logs to identify potential improvements.
- + Using GitHub for version control when supporting updates to automated tests and related test resources.
- + Collaborating with development teams to verify fixes, clarify functionality, and improve product quality throughout the QA lifecycle.
- + Participating in Scrum ceremonies and contributing to continuous improvement of QA processes and testing standards.

03.2016 – 02.2020 (4 lata)

■ **Network Development Planning Specialist** | Orange Polska | Katowice

Krótki opis stanowiska:

Network Planning / Broadband Infrastructure

- + Planned, designed, and deployed broadband network infrastructure and central office equipment.
- + Executed network optimization projects, including energy efficiency improvements and configuration of overloaded ATM/IP cascades.
- + Independently identified, evaluated, and secured locations for IPDSLAM system deployment.
- + Acquired and managed international vendors producing equipment for Orange Polska, maintaining long-term B2B relationships.
- + Coordinated regional assignments and ensured successful execution of innovative network development projects.

04.2008 – 10.2015 (7 lat 7 mies.)

■ **IP, Voice and IPTV Services Specialist** | Ericsson Sp. z o.o | Katowice

Krótki opis stanowiska:

Telecommunications Systems / Service Operations

- + Operated and maintained telecommunications systems for major telecom providers across Poland.
- + Provided xDSL service support for end users and managed DSL access line maintenance.
- + Maintained VoIP services on DSL access networks, ensuring continuous service availability.
- + Performed remote incident diagnostics and troubleshooting using CRM Clarify.
- + Consistently achieved top KPI performance metrics; served as Shift Leader, managing team workload and delegating tasks effectively.
